

**UPVC**  
MAINTENANCE SUPPLIES

# **KNOWLEDGE SERVICE INVENTORY & NEXT DAY DELIVERY**

ARE THE KEY TO REDUCED DOWNTIME  
WHEN IT COMES TO SOURCING SPARE  
**UPVC WINDOW & DOOR PARTS**

YOUR **TRUSTED SUPPLIER** OF ALL  
WINDOW & DOOR HARDWARE

2021

Thank you for requesting our catalogue, I hope it is a useful tool and it enables you to find the products you require. Our range expands on a weekly basis so if there is something you are looking for that doesn't appear in the catalogue, please contact us with the details and we may have the item in stock. If not we will endeavour to find it for you or suggest a suitable alternative.

Our twenty nine years of business is founded on our experience working within the UPVC maintenance and repair business; giving us valuable insight into the way the industry itself works and a deep understanding in order to be best placed to help you and your business.

**David Earnshaw**  
Managing Director

### **ORDER ONLINE, BY PHONE OR IN PERSON**

Our website: **[www.upvcmaintenance.co.uk](http://www.upvcmaintenance.co.uk)** offers our full and up-to-date product range, available to buy at your convenience.

Should you prefer the peace of mind of talking to one of our technical experts before placing an order then feel free to ring us on **0113 236 0800**, quoting the product codes found in this catalogue. You could also pop in to one of our trade counters if you're in the area: our customer services department and retail premises are both open **Monday to Thursday 8.00am until 4.45pm** and **Friday 8.00am until 3.00pm**.

# OUR POLICIES

## DISPATCH & DELIVERY POLICY

All orders for stock items received before 2.00pm will be dispatched the same day. Carriage is dependent on item size and order value, and we have 3-5 day delivery & 1-2 day delivery options available to best suit our customers' needs. In the unfortunate event that a parcel arrives damaged or short-stocked, this must be noted on the driver's delivery document and notification must be made to ourselves within 48 hours of receipt.

## RETURNS POLICY

We follow the requirement to accept returns as per the relevant Sale of Goods Acts. Please do not hesitate to contact us should you need any clarification.

## SPECIAL ORDER ITEMS

Where possible we endeavour to help our customers find the correct parts they need. Should this require us to order a non-stocked item as a one-off transaction then full payment must be made prior to ourselves ordering the goods. When requesting us to order non-stocked items please ensure you are ordering the correct item as we are unable to accept returns of special order goods unless they arrive damaged or faulty.

# MEASURING GUIDES FOR DOORS

## HOW WE VIEW A DOOR

We view a door from the inside when it opens inwards. The door below is a right-handed door.

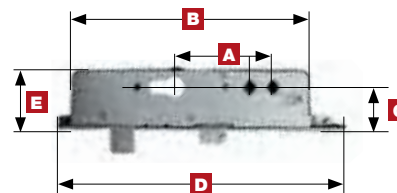

Left Hand

Right Hand

## MEASURING LOCK GEARBOXES

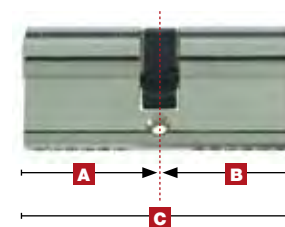

In order to identify the correct lock gearbox there are five principal measurements to help the process:

- A: Handle/spindle centre
- B: Lockcase length
- C: Backset
- D: Faceplate
- E: Lockcase
- F: Lockcase depth

## MEASURING LOCK CYLINDERS

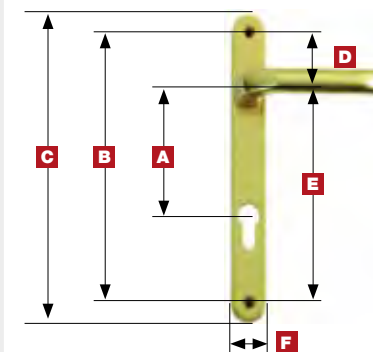

Three measurements are needed for cylinder locks; and A plus B equals C. On thumb turns, the T measurement denotes the side with the thumb turn.

## DOOR HANDLE DIMENSIONS

There are several measurements to help identify door handles: not all are important, but could prove useful:

- A: Handle centre to barrel centre (PZ)
- B: Top screw to bottom screw
- C: Backplate Length
- D: Spindle to top fixing
- E: Spindle to bottom fixing
- F: Backplate width

# MEASURING GUIDES FOR WINDOWS

## TYPES OF HANDLE

There are two main types of window handle: espag handles (top) and cockspur handles (bottom). The latter is most often found on older UPVC windows. With espag handles, the important measurement is spindle length; and with cockspur handles, the backset measurement will dictate the handles that will suit.

## WINDOW HANDING

To identify the handing of your window handle note which direction the handle is pointing when open (side hung) or closed (top hung). This example shows a right handed handle.

## HINGE DIMENSIONS

There are three main measurements necessary to identify the dimensions of your window hinges:

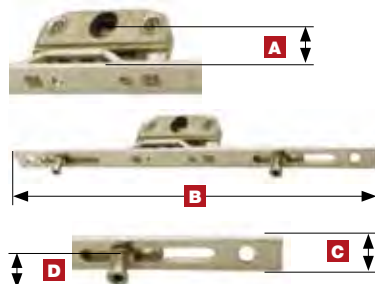

- A: Hinge length
- B: Hinge width
- C: Stack height

## MEASURING A WINDOW LOCK

There are four measurements that will help you to identify the specific window lock you require:

- A: Backset
- B: Faceplate length
- C: Faceplate width
- D: Cam height

# ELITE T BAR HANDLE

The stunning Elite stainless steel T Bar Handle suites perfectly with other products in the Trojan Stainless Steel range. Offering an upmarket, contemporary handle the T Bar Handle is manufactured in 316 stainless steel and delivers outstanding product performance. Supplied as in-line or cranked versions, both with back to back fixing or bolt through fixing, the T Bar comes with the Trojan 25 year anti-corrosion guarantee.

- Manufactured in 316 stainless steel
- Suites with other Trojan stainless steel furniture for a totally coordinated, modern door suite
- Produced from 1.2mm thickness material
- In-line peg version or cranked peg version available
- Fixing variations - back to back fixing version (one pull handle each side of the door) and or bolt fix version (one pull handle one side only with cover caps on the opposite side of the door)
- Fixing pegs supplied with a machined brass insert as standard. M8 bolt has the option of a clear washer to protect the door face
- Bolt fix and back to back fixing methods as per illustration shown overleaf

## Guarantee

25 year anti-corrosion guarantee subject to correct installation and maintenance

## Product Material Specifications

316 stainless steel

## Testing

Corrosion tested in excess of 1000 hours based on BS EN1670

## Box Quantity

Bolt fix version – 8      Back to back version – 4

\*Guarantee subject to correct installation and maintenance

## IS YOUR VAN WELL STOCKED?

We're not just about special order items and difficult to find products. Our supplier relationships enable us to **supply stock on a rolling basis quickly and cost-effectively**, whether you're one man with a van, or a national firm with a fleet of over 100 vehicles.

**Why not give us a call to see how we can help you!**

**0113 236 0800**

## Sac Bolt

**PRODUCT CODE:** SACBOLT

- Hinge protector and sash pull in.

# DUOFLEX™

## For Top Hung Open Out Windows

There are 3 DuoFlex openers Recessed, Flush and Stepped. The information below will help you to choose which you need.

### Window Type

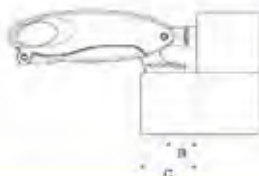

#### RECESSED

- For timber

A= Fixing centre to frame 25mm

B= Fixing centre to Sash 19mm

C= Minimum frame width required 38mm

Part No.

STRDU01

Finish Code

Silver (20) White (25)  
SSP (44) PBP (43)

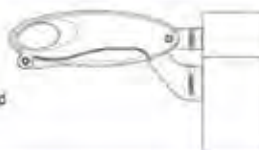

Other RAL colours and plated  
finishes available, please enquire.

#### FLUSH

- For Timber Aluminium or Steel Frames

A= Distance between fixing centres 25mm

Step (see B below) 0-10mm can be accommodated

STRDU02

Silver (20) White (25)  
SSP (44) PBP (43)

Other RAL colours and plated  
finishes available, please enquire.

#### STEPPED

- PVCU

A= Distance between fixing centres 48mm

B= Step from face of sash to face of frame 16mm

Step 0-26mm can be accommodated

(It is important that screws are fixed into reinforcement inside the profile)

STRDU03

Silver (20) White (25)  
SSP (44) PBP (43)

Other RAL colours and plated  
finishes available, please enquire.

Depending on the size of the window one, two or three openers may be required:

SASH WIDTH UP TO 600MM

SASH WIDTH 600MM TO 900MM

SASH WIDTH 900MM TO 1500MM

We recommend that the link bar is approximately 2/3 to 3/4 of the sash width  
E.g Sash width x 0.75 = link bar required, round up to nearest 50mm  
Code for the link bar STRABAR00. A centre ring can be fitted STRX02100

For operation with a pole for higher level windows

(Available in 1 metre—X02801011, 1.5 metre—X02801511 or 2 metre—X02802011 lengths)

### Additional Points:

The openers will restrict the opening of the window to approximately 150mm. A link bar will divide the opening gap in half, e.g. a 150mm opening will effectively become a 75mm opening which meets recommendations for 2nd storey and higher windows. Sash height— a minimum sash height of 250mm is required when butt hinges are used or 400mm if friction hinges are fitted. Pole operated devices are not recommended for windows above 3m from finished floor level or where windows are in a deep reveal.

The information on this data sheet is intended as a guide only, to check specific requirements please provide drawings so that our technical team can advise further.

# Tilt Foot

- Please specify which Tilt Foot type you need for the F1 pre-tensioned balance when ordering.

# Universal Tilt Foot

- Please specify which Tilt Foot type you need for the F1 pre-tensioned balance when ordering.

# PN UNI Top Swing Reversible Gearing

**NEW**

**UniSystem**

- Easy and secure operation
- Fully reverses for easy cleaning
- Sash reversal takes place outside of the building avoiding interior curtains/blinds
- Emergency egress escape opening can be achieved (providing building regulations are met)
- BS 7950 compliant when additional support hardware is used
- BS 6975 Part 2 2009 compliant

The sash can be fully reversed for easy, safe cleaning from the inside. The sash reversal takes place outside of the building to avoid damage to interior curtains or blinds.

The Top Swing gearing is capable of achieving emergency escape (providing that all relevant building regulations are met). An integral child restrictor and reverse catch is supplied as standard for safety. Additional safety can be added by mounting a blocking device, preventing the window from being opened more than 100mm.

The robust system has been designed with multi-storey public and commercial buildings in mind, including hotels. Equally suitable for high-rise domestic applications, the hardware solution is ideal for situations in which safe cleaning of the opening is necessary.

The sash and frame detail are the same for all window PN UNI variants, allowing styles to be fitted without changing profile routing. This ensures a uniform aesthetic appearance on all window styles.

## Technical information:

- Recommended sash window height: 358mm – 1700mm (height should always exceed width)
- Glazed sash weight: 60kg max
- Heavy duty gearing to suit 80kg sash weights available

All gaskets listed on this page are available by the metre.

## Air Bag

**PRODUCT CODE:** AIRBAGSMALL

- Will carry a 100kg load
- Will fit in a 2mm gap, pumping up to 70mm

## Gasket Roller

**PRODUCT CODE:** GASKETROLLER

- Rubber wheel on steel body

## Single Glass Lifter

**PRODUCT CODE:** SINGLE-GL

- Aluminium construction
- 30kg working load
- Butterfly handle

## Double Glass Lifter

**PRODUCT CODE:** DOUBLE-GL

- Heavy duty
- 60kg safe working load
- Comes with spare levers

## Flexi-meter

**PRODUCT CODE:** GLASSOMETER

- To measure glazing unit & panel thickness

## Glazing Shovel

**PRODUCT CODE:** GLAZINGSHOVE

## Triple Glass Lifter

**PRODUCT CODE:** TRIPLE-GL

- Heavy duty
- Aluminium construction
- 80kg working load
- Comes with spare levers

## Vacuum Glass Lifter

**PRODUCT CODE:** GLASSLIFTVAC

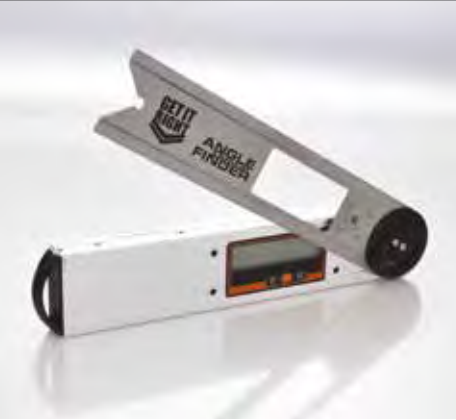

- 8 inch diameter
- 100kg load capacity

## Digital Angle Finder

**PRODUCT CODE:** ANGLEDIGI

- Accurate to 0.05 degrees
- Easy to read display
- Angles from 0 to 225 degrees

## Angle Finder

**PRODUCT CODE:** ANGLEFINDER

- For measuring internal angles of bays & sill

## Cylinder Snapper

**PRODUCT CODE:** AS5030

- Double ended for euro and oval profiles
- **Only available to registered accounts**

## Plug Puller

**PRODUCT CODE:** PLUGPULLER

- The Bell lock puller – for fast opening of doors
- Easy removal of cylinder plug without removing handles
- **Only available to registered accounts**

## Gasket Shears

**PRODUCT CODE:** SHEARSXPSK2

- In-built angle measure

## Gasket/Trim Snips

**PRODUCT CODE:** SNIPS

- In-built angle measure

## Lock Puller Screws

**PRODUCT CODE:** PULLERSCREW

- Additional screws for use with the lock puller
- 5.4mm available as standard

## Locksmiths Multi Tool

**PRODUCT CODE:** MUL-T-TOOL

- Conical square spindle from 6mm to 10mm
- Scale for measuring replacement cylinder length

## Foam Gun

**PRODUCT CODE:** FOAMGUN

- Heavy duty metal gun

## Sealant Gun

**PRODUCT CODE:** POWERGUN

- Extra pull trigger  
- Will accept 310ml and 400ml cartridges

## Multi-function Knife

**PRODUCT CODE:** KNIFE10IN1

- 10-in-1 compact knife

## Junior Hacksaw

**PRODUCT CODE:** JUNIORKSAW

## De-glazing Knife

## NOTES

# CONDITIONS OF SALES

In the following conditions of sale, reference to 'the company' shall mean UPVC Maintenance Limited.

## 1. APPLICATION

- 1.1 These conditions alone shall govern and be incorporated in every contract by the company to any customer.
- 1.2 No addition to or cancellation, variation, qualification or waiver of any or all of these conditions shall have any whatsoever, legal or otherwise (whether acted upon by the customer in any way or not) unless it has previously been so agreed by the company and confirmed in writing by an Officer of the company.

## 2. PRICE

- 2.1 The price of goods shall be at the price ruling at the date of dispatch.
- 2.2 The company reserves the right to vary the price of goods without giving prior notice to the buyer.
- 2.3 The customer shall pay the full purchase price together with any VAT duty and carriage charge unless otherwise confirmed in writing by an Officer of the company.

## 3. PAYMENT

- 3.1 New customers requiring credit facilities must complete an account application form to enable us to carry out credit checks. They must also have had a trading history with the company for a period of six months prior to requesting a credit account. Only customers spending a minimum of £500.00 per month will be offered credit facilities.
- 3.2 Payment by account holders for goods received shall be made in full to the company within 30 days from the end of the month in which the goods are invoiced. Any late payment will incur interest at the rate of 8% above the Bank of Scotland base rate in accordance with the provision of the Late Payment of Commercial Debts (Interest) Act 1998.
- 3.3 **Credit card payments**  
Upon placing your first order and paying by credit/debit card, your will be given the opportunity to register your card details on the secure service offered by our card processing company Commidea Ocius. After the initial process we never have access to the card details; which can continue to be used for subsequent transactions.

## 4. DELIVERY

- 4.1 Delivery times are estimated only and while the company will endeavour to adhere to them it shall not be bound. The delivery company will attempt delivery twice only and will leave 'an attempted delivery card' at each time requesting you contact them. If you subsequently request a different delivery address from the one requested at the time of order this will incur an additional cost from our courier of £8.50+vat, if they are unable to deliver the consignment and you fail to collect from their depot or make other arrangements, the consignment will be returned to ourselves and any request for re-delivery will incur an additional cost to you of £24.00 + vat. The company shall not be liable for damages or otherwise for any delay howsoever occasioned or for loss or injury arising from such a delay.

- 4.2 **Missing items**  
It is the customer's responsibility to sign for the correct number of packages on the delivery driver's manifest. Should items be missing from the packages this must be reported within 48 hours of delivery.
- 4.3 **Incorrect goods**  
It is the customer's responsibility to notify us of any incorrect goods supplied within 48 hours of delivery.
- 4.4 **Damaged in transit**  
Should any item arrive damaged, it is your responsibility to sign as such with the courier. Packaging must be retained and photographic proof sent to us within 48 hours of receipt to enable a claim against the courier to be made. Arrangements will be made to collect the damaged goods and replacements will be sent. We cannot accept any claims for damage if the above timescales are not followed.

## 5. CARRIAGE

- 5.1 All orders over £500 net value will be delivered 'carriage paid' to all parts of the UK mainland with the exception of large single parcels over 25kg, that require a two-man lift or a light-weight parcels which will be charged on their volumetric weight.
- 5.2 Customers requiring delivery by special means shall be charged at the full cost of such special means.

## 6. LOSSES OR DAMAGE IN TRANSIT

- 6.1 Where the price includes delivery other than ex works we will repair or at our option replace free of charge within reasonable time all goods lost or damaged in transit, provided we are given written notice of such loss or damage within 48 hours of receipt.
- 6.2 All deliveries must be inspected and any signs of damage to goods or packaging should be noted on the driver's receipt.

## 7. DEFECTS

- 7.1 If any defects appear in any part of any goods supplied - but not manufactured - by the company, the customer shall be entitled to receive only those benefits received by the company under any contract between it and the manufacturer or supplier of the parts in question. The company's obligation shall accordingly be strictly limited in this respect.
- 7.2 Any defects which under proper use appear in goods within a period of twelve months after delivery and are due to faulty materials, workmanship or design shall be made good by the company either by repair or reasonable replacement. Faulty items are to be returned to us for assessment by the manufacturer, at which point entitlement to a refund will be confirmed or denied, and subsequently issued by us with immediate effect if the former holds true. The company will have no other liability in respect of such defective goods. The cost of carriage of the returned goods or parts shall not be refunded by us and the repaired or replaced parts will be delivered by us free of charge. Save in the case or transaction the subject of the provisions of the Consumers Protection (Restrictions on Statements) Order 1976 as amended by the Consumer Transactions (Restrictions on Statements) (Amendment) order 1978 and subject to any other statutory provision, which render this exclusion ineffective.

- The company liability under this condition shall be in lieu of any obligation implied by law as to the quality or fitness for any purpose of the goods and save as provided in this condition the company shall be under no liability, whether in contract, tort or otherwise, in respect of any defects in the goods or for any injury, loss or damage resulting from such defects from any work done in the connection therewith.
- 7.3 Without prejudice to the generality of the exclusion the company will not in any circumstances be liable (whether in contract, tort or otherwise) for any consequential loss or damage.
- 7.4 Nothing in these conditions shall exclude or limit the companies for death or personal injury caused by its negligence or the negligence of any for whom it is vicariously liable.

## 8. GOODS RETURNED

- 8.1 **Trade counter sales**  
The company reserves the right to refuse to take back any goods which it deems to have supplied correctly in line with the customer's instructions. If the company agrees to any goods return this will be subject to a 20% restocking charge and any carriage charge will not be refunded. Returns if accepted by the company must be requested in writing on a company returns note quoting the company invoice number within 14 days of receipt of goods.
- 8.2 **Distance sales**  
Items that have been purchased online and over the phone can be returned to us if unsuitable for the job in question. The customer has 14 days from date of receipt in which to notify us of their return; and a further 14 days to return the product to us. Provided the above deadlines are met, the full cost of the goods will be refunded. This refund will be processed within 14 days from receipt of product via the original payment method.
- 8.3 In either scenario, the customer's postage charges to return an item to us are the responsibility of the customer.
- 8.4 In either scenario, any goods returned which are not in a resalable condition will not be accepted.

## 9. SPECIAL ORDER PRODUCTS

- 9.1 Special order items will require payment in full before ordering by the company. Special order items are not returnable with exception of terms of clause 7.

## 10. TOLERANCE

- 10.1. Where goods are supplied as complete coils, reels or roll the anticipated length per unit item is given for reference only and does not constitute an accurate measurement. Whilst every effort is taken to maintain dimensional continuity all sizes are nominal and for customers guidance only.

## 11. INSOLVENCY OF THE BUYER

- 11.1 If the customer enters into any voluntary arrangements with or compound with the customers creditors or a receiving order is made against the customer or an order is made or a resolution is passed for the customer's winding up, administration, a receiver (of any kind) is appointed over all or any of the customer assets we may (without prejudice to any other rights or remedies available to use) stop any goods in transit to the customer (including any goods at your premises or elsewhere) and suspend further deliveries of goods until payment for such goods

- shall have been assured to our satisfaction.
- 11.2 Notwithstanding that all risk in any goods supplied shall have passed to the customer on delivery or ex-works is collected by the customer the title to such goods shall not pass until payment has been made for them in full and for this purpose payment shall not be treated as having been paid until all cheques, bills or other instruments of payment given to us shall have been met or honoured in accordance with their terms.
- 11.3 Until payment has been made for them you shall if so required store mark or designate all goods supplied so as clearly to show that they are our property.
- 11.4 If the customer shall default in the punctual payment for any goods supplied or in any of the events mentioned in 11.1 above shall be entitled forthwith to repossess any goods which remain our property and the customer shall for that purpose afford us access to and we shall be entitled to enter any premises in your occupation or to which the customer has access and where the goods may then be situated.
- 11.5 The customer shall not pledge or allow any lien or charge to a rise over any goods supplied or the documents of title hereto and shall not deal with them otherwise than in the ordinary course of the customer's business.
- 11.6 In the event of any sale of disposition of the goods by you, you shall hold in trust for us: -
  - a) If the goods have not been mixed with or incorporated in or attached to other goods or land or buildings the whole of the proceeds of the sale or disposition.
  - b) If the goods have been mixed with or incorporated in other goods or have become attached to land or buildings so much of the proceeds of sale as is equal to the price of the goods under our contract with you for the supply of the same.

## 12. LEGAL CONSTRUCTION

This contract shall be constructed in accordance with English Law and shall be subject to jurisdiction of the English Courts.
